Guest Operating System Installation
A virtual machine is like a physical computer; it needs an operating system. How will you install the guest operating system?
Install from:
Installer disc:
DVD Drive (E:)
Installer disc image file (iso):
D:\sw\en_windows_server_2016_x64_dvd_9718492_
Browse...
I will install the operating system later.
The virtual machine will be created with a blank hard disk.

Network Type
What type of network do you want to add?
Network connection
Use bridged networking
Give the guest operating system direct access to an external Ethernet network. The guest must have its own IP address on the external network.
Use network address translation (NAT)
Give the guest operating system access to the host computer's dial-up or external Ethernet network connection using the host's IP address.
Use host-only networking
Connect the guest operating system to a private virtual network on the host computer.
Do not use a network connection

Select a Disk
Which disk do you want to use?
Disk
Create a new virtual disk
A virtual disk is composed of one or more files on the host file system, which will appear as a single hard disk to the guest operating system. Virtual disks can easily be copied or moved on the same host or between hosts.
Use an existing virtual disk
Choose this option to reuse a previously configured disk.
Use a physical disk (for advanced users)
Choose this option to give the virtual machine direct access to a local hard disk.

New Virtual Machine Wizard
Specify Disk Capacity
How large do you want this disk to be?
Maximum disk size (GB):
1024
Recommended size for Windows 10 x64: 60 GB
Allocate all disk space now.
Allocating the full capacity can enhance performance but requires all of the physical disk space to be available right now. If you do not allocate all the space now, the virtual disk starts small and grows as you add data to it.
Store virtual disk as a single file
Split virtual disk into multiple files
Splitting the disk makes it easier to move the virtual machine to another computer but may reduce performance with very large disks.

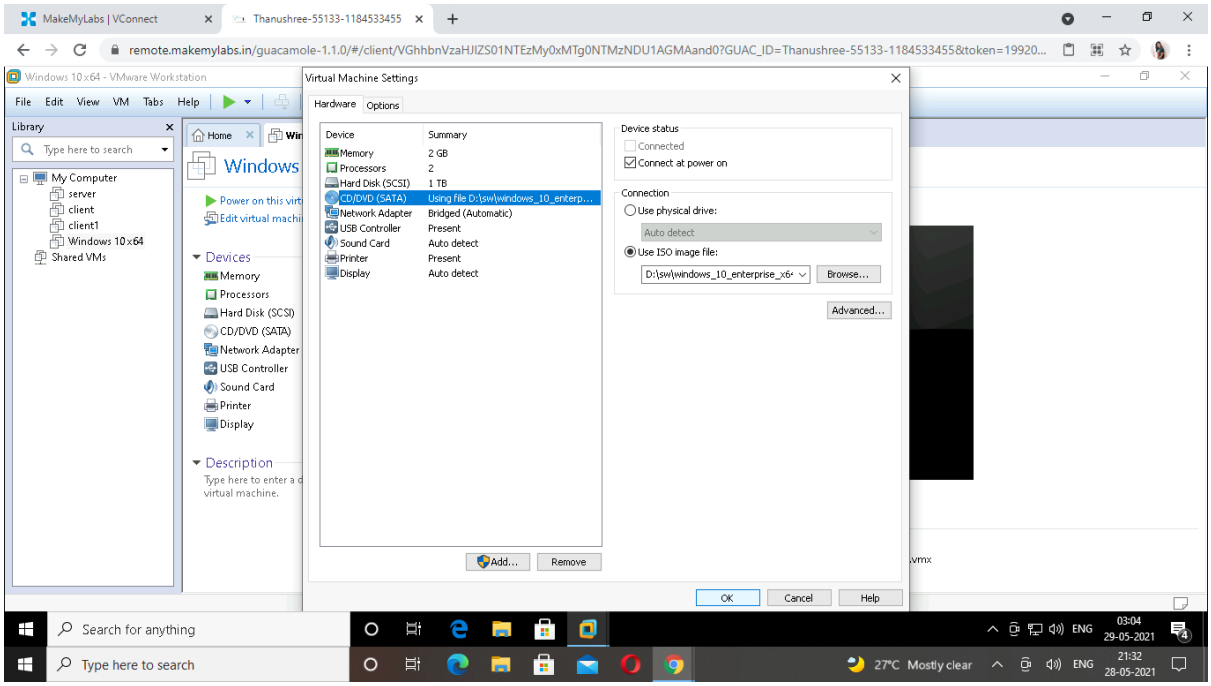
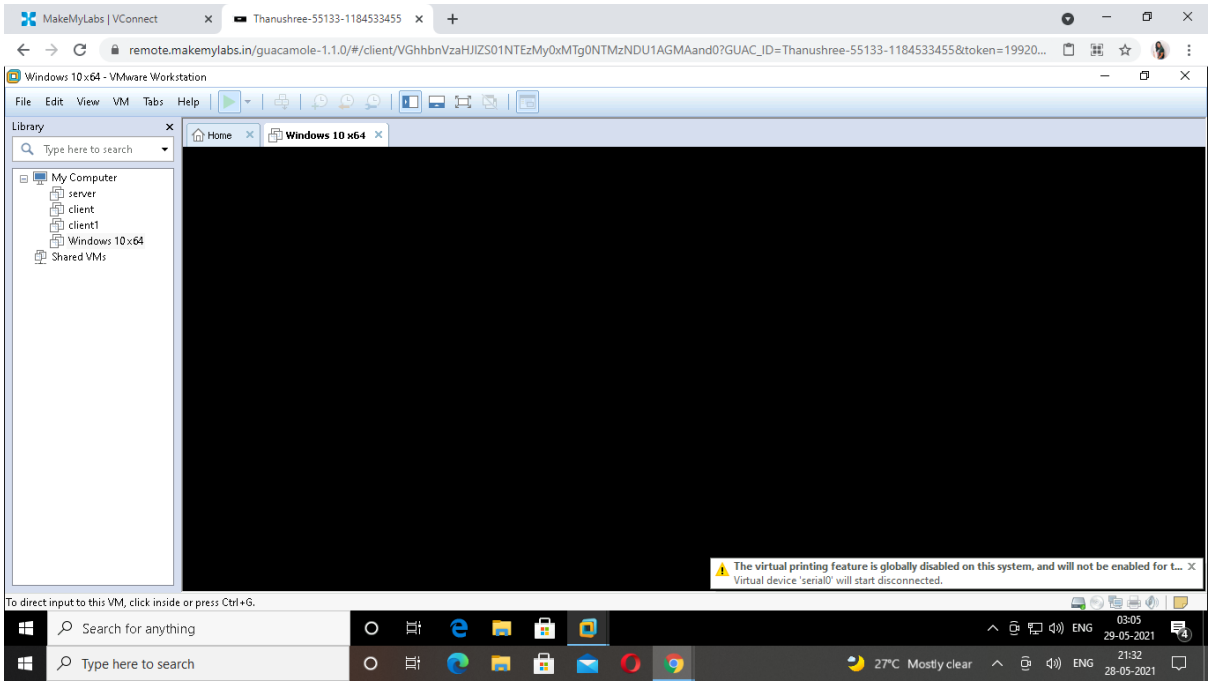
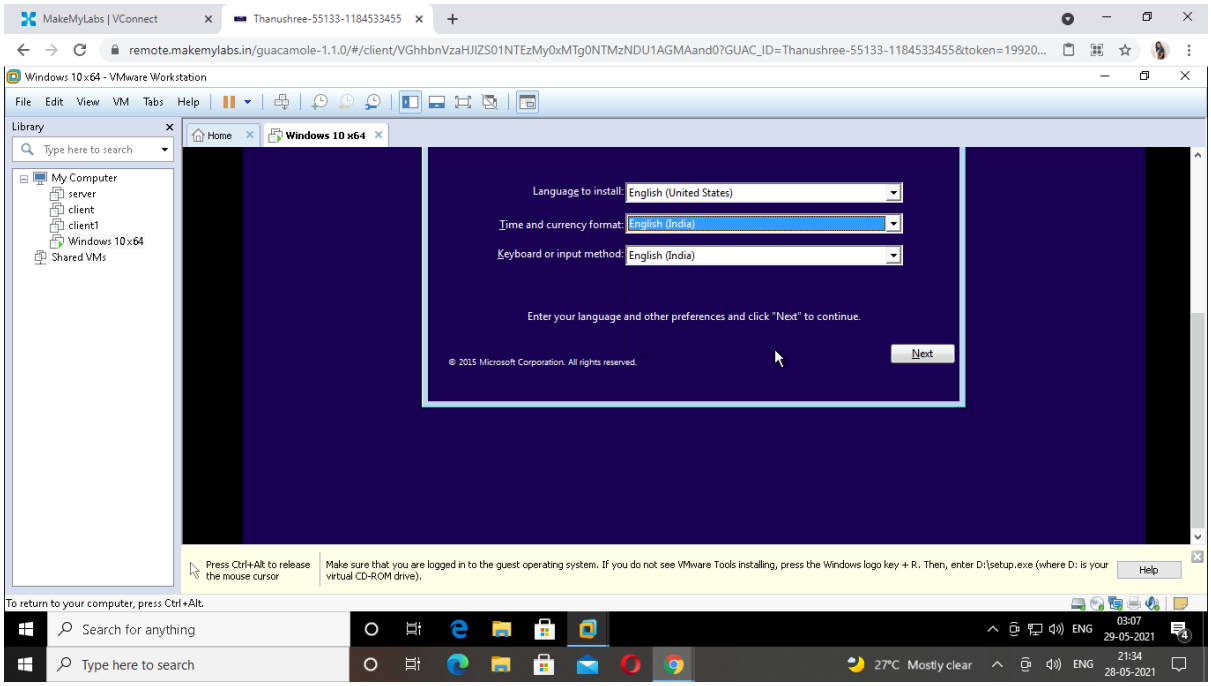
IN CD DVD WE NEED TO DOUBLE CLICK AND BROWSE WINDIOWS 10 AND CLICK OK

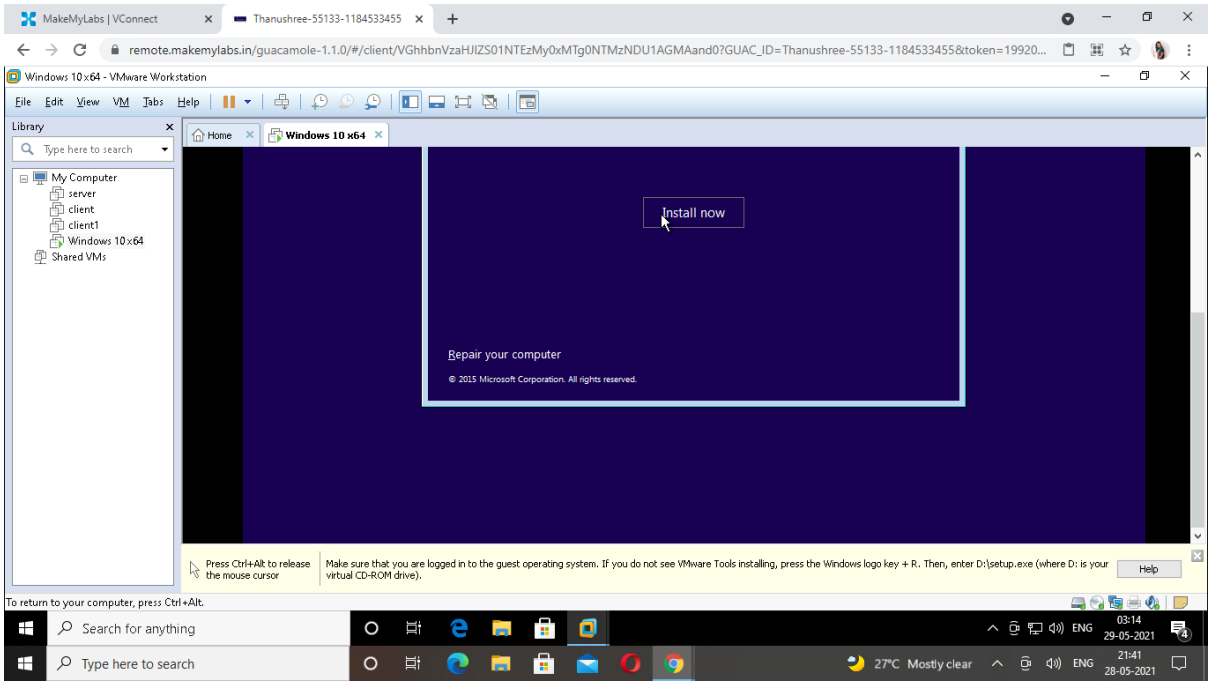


AFTER SUCCESFULL INSTALLATION WE NEED TO NOW INSTALL THE VM TOOLS

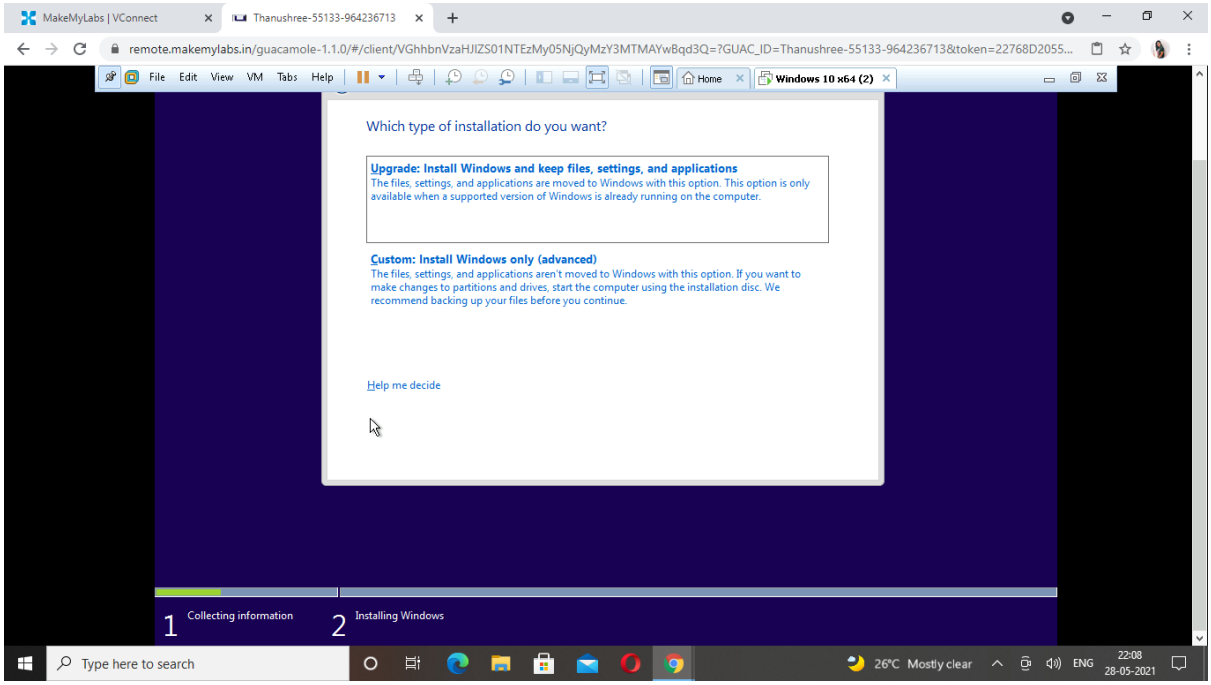


WE NEED TO SELECT ENGLISH(INDIA)

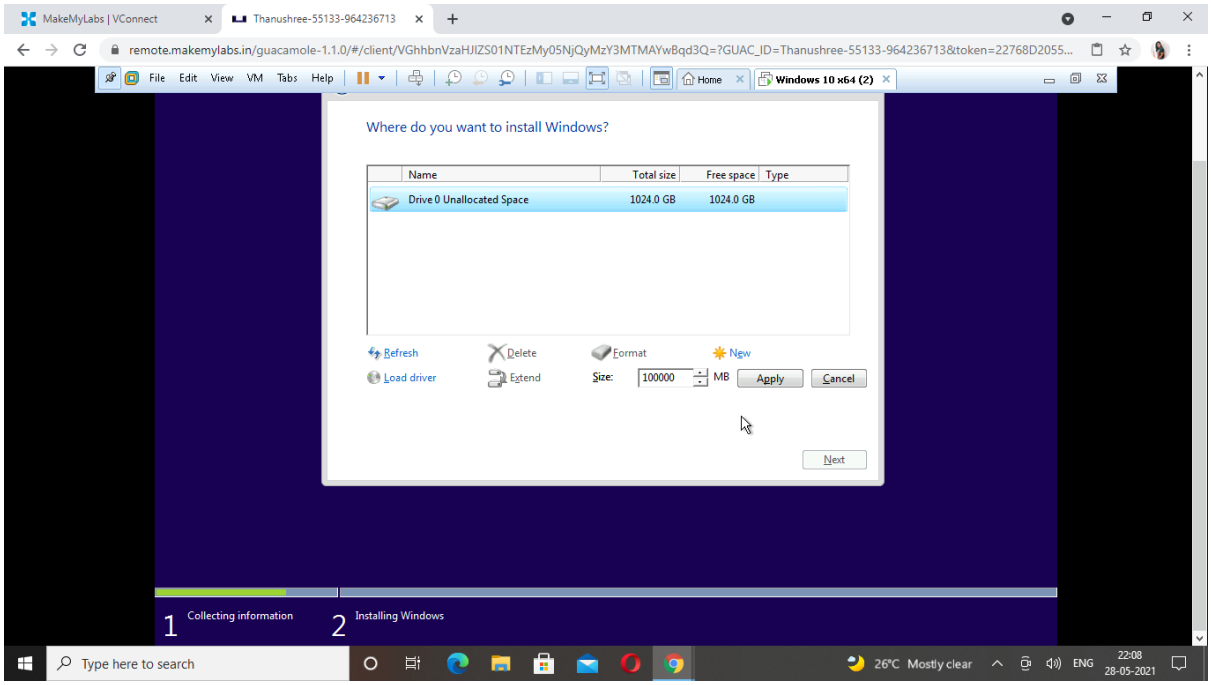




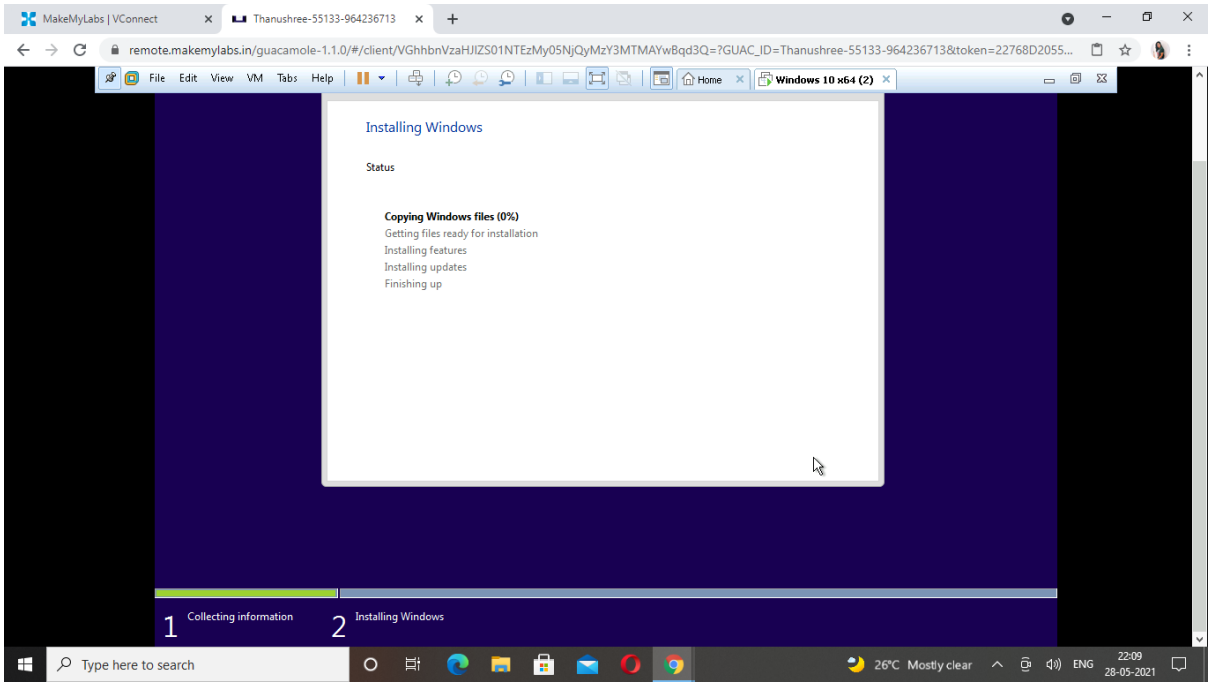
WE NEED TO SELECT CUSTOM



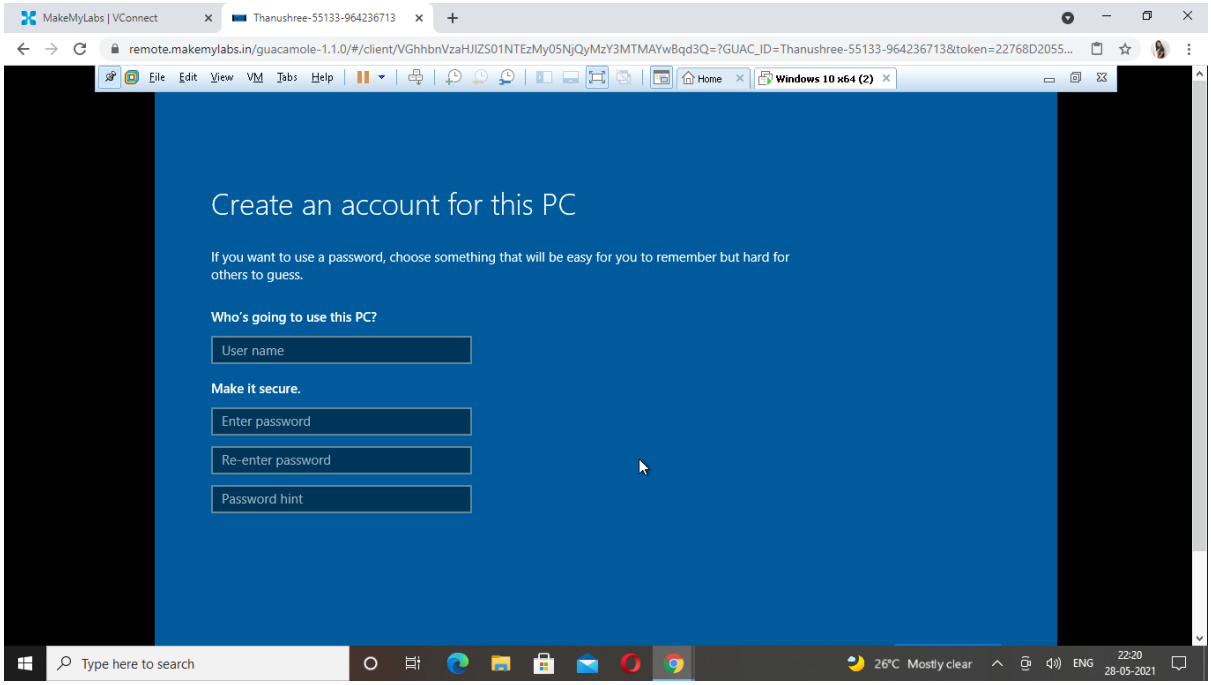
IN THAT WE NEED TO ADD THE SIZE IN NEW 100000

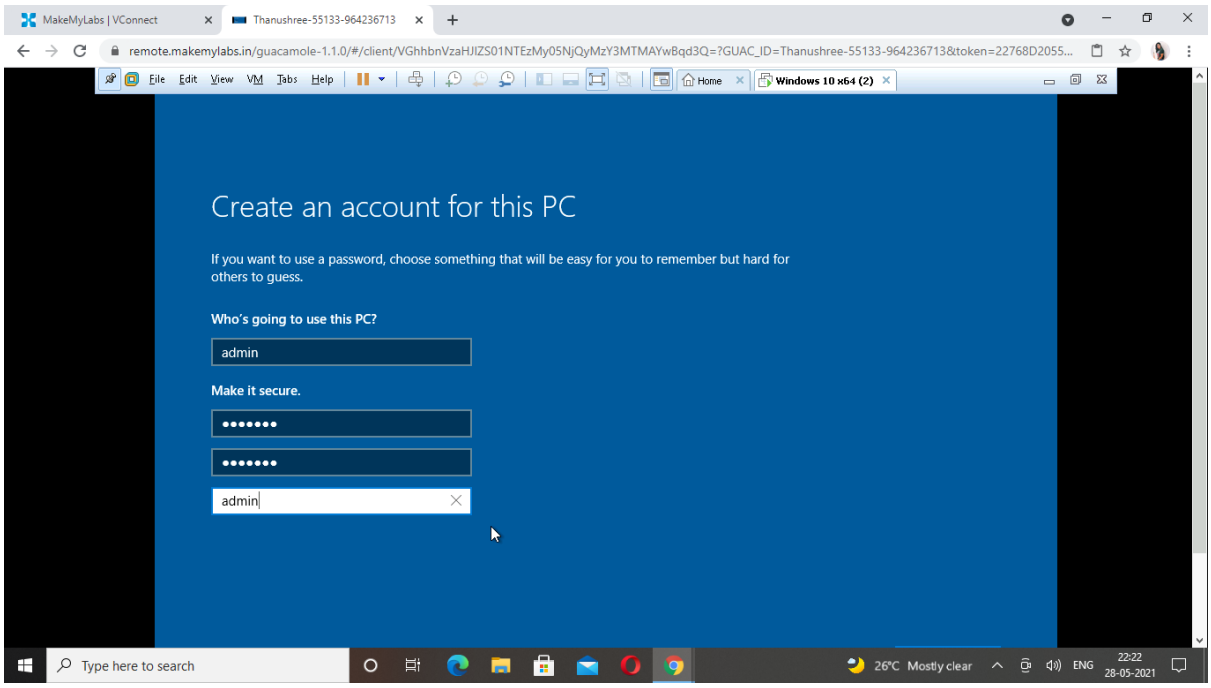


NOW THE WINDOWS 10 WILL START INSTALLING

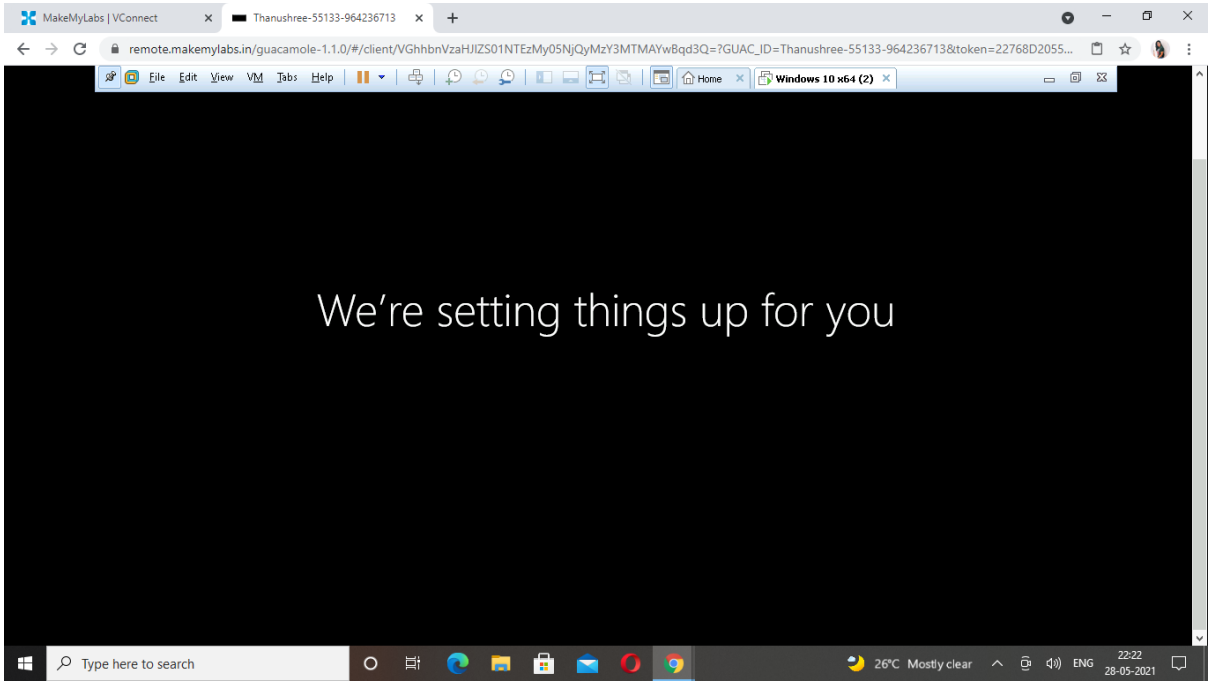


AND NOW WE NEED TO ADD THE USER NAME AS ADMIN AND ENTER THE PASSWORD





AND IT WILL START INSTALLING



NOW WE NEED TO CHANGE THE COMPUTER NAME AND IN THE DOMAIN WE NEED TO ENTER MSFT .COM
